# You want a **furniture company** that is always there for you

The lives of those you feel responsibility for change constantly.

It could be children entering kindergarten. High school students preparing for college and university. Graduates entering the corporate world. In every situation, the physical environments they grow and learn in continually change. Just as they themselves change.

At Palmieri, we're an innovating, expanding company in an evolving industry. We are a furniture company, but we're about more than desks and tables and chairs and shelves. We're about people learning. Sharing. Laughing. Studying. Collaborating...

We are Palmieri. And we're with you every step of the way.

# PALMIERI Building on a strong foundation

**Palmieri is built on values** of genuine commitment and honesty. Values that embrace quality, craftsmanship and innovation.

From the company's modest origins in Italy over a half-century ago to the modern, international business it is today, Palmieri has grown and evolved over the decades, but our values remain steadfast and true.

## *Four pillars of strength*

*While fulfilling the needs of our four distinct furniture markets: K-12, Library, College/University, and Corporate - we never forget that, first and foremost, we're meeting people's needs. Your needs... and the needs of those you serve.*

# K-12: the formative years

*Young minds need furniture that stimulates learning.*

**We're all products of our environment.**

And so it's fitting we make products - modular tables, workstations, collaborative furniture, configurable tables - that ensure the environments for growing minds are the best they can be.

Whether those young minds are entering Kindergarten or leaving Grade 12, we believe their learning environments should be positive and stimulating. Creative and comfortable. Pragmatic and inspired.

Libraries mean so much to many different people. And our role is to provide you with a wide range of furniture options to help make your library an ideal environment. We have the experience that will let you achieve your vision.

# Making colleges and universities smarter than ever

*Post-secondary success depends on well-designed spaces.*

**Academic environments** continue to evolve with the times. Colleges and universities are becoming much more collaborative, yet still must offer areas for quiet, focused work. Technology informs these spaces, whether through ample power for devices, or rooms offering projection systems and conference tables to practice presentations.

Recognizing that technology will continue to change, design flexibility - including modular and configurable furniture - is central to both short and long-term success. Educational environments reflect a brave new world. And we're excited to be part of it.
